ANNOUNCEMENT.

For Magistrate.
We are authorized to announce Thomas J. Jones as a candidate to succeed himself as Magistrate in Owingville district, No. 6, subject to the action of the Democratic party.

Allan Young was downed badly. Whether he will stay downed is a question.

The new bank at Morehead was opened with prayer. That is better than opening it with a jimmy or dynamite.

The Republican wrangle in Louisville puts the party in a fix similar to that of the Democrats in that holy city.

The bears are doing things to the stock market in New York. As none but the very rich are losing it makes no great difference.

The Evansville (Ind.) riots over and the people have had time to partially realize the criminal folly of it all in defying the law.

Our WILLSON got the hot end of it in Louisville. It matters not in which party, somebody is always getting left in Louisville politics.

The Democratic State Committee met at Frankfort Monday and sat down on Chairman Young on the Louisville squabble, sustaining the Freeland Committee.

MARK HANNA is not going to give up business nor politics either. His business brought him politics, and his politics brought him business. He is not going to be a party man as long as his health will permit him to drive the two.

L. E. NOLAN, of Walla Walla, ten years ago eloped with the wife of O. W. Sams. He recently eloped with his seventeen-year-old daughter. Nolan seems to be what is sometimes designated "a bird." He may yet elope with old man Sams.

PRESIDENT ROOSEVELT has his rising star. For instance, he knows that not everything a street band toots is music and applause only what is a concord of sweet sounds, while what is merely a dreary wail of sound though technically correct is politely tolerated only.

J. M. McKIMMER, the embezzling Louisville banker, is at last in a Federal prison serving a six years' term for his misdoings. Justice has reason to be in a good place. It is every case of the kind ended similarly the temptations to rascality would be vastly diminished.

GEN. CASSIUS M. CLAY, of White-Hall, Madison county, has been declared of unsound mind by a jury. He is bedfast and consents to the services of a physician and a nurse, but if he recovers sufficiently to get out of bed those jurymen had better take a trip for the benefit of their health.

REKAP has a long lead for the Republican nomination for Governor at the State convention at Louisville this week. Out of 90 counties reported he has 427 votes, Williams 145, Pratt 185. There are 883 votes unreported and 328 contested. It takes 1,185 to nominate. It looks like Rekcap on the first ballot or a dark horse.

The pressure on Gov. Beckham to commute the death sentence of O'Brien and Whitney, the murderers of A. B. Chinn in Lexington, has been very strong, but he says the sentence must be executed. The interests of society demand that they pay the penalty of their crime. There are no extenuating circumstances in their case.

COUNTY JUDGE JAMES HARGIS, of Jackson, says he has no intention of resigning his judgeship or membership in the State Democratic Committee. However, he says if any one will circulate a petition and secure the signatures of ten percent of the voters of Breathitt county regardless of party he will resign and pay the expenses of circulating the petition. At the convention of mice the project of killing the rat failed because no one could be found willing to tie on the bell.

The great yacht race between the British boat Shamrock III. and the American Belle for the famous America (or Queen's) Cup is to come off soon. Each of the two boats has in a long series of trials proved faster than the boats that raced last year for the trophy. A British victory would set the people of England wild, for their yachts have been trying for a half century to win back the Queen's Cup, brought this country by the old yacht America, which is still a staunch vessel doing menial service.

There was a hard-contested ball game between Slate Valley boys and Knox Lick boys; score 21 to 23 in favor of Knox Lick. Now, one word to you, boys: Your game is a healthful exercise; you are sober, respectful and courteous, but, boys, play some other day except Sunday. While there are worse things done on Sunday there are better things done.

Sunday evening Constable Dickerson and Grant North passed here with Riley Craig on their way to Owingville. Riley is charged with assault on the Hardin and wife; not the first time Riley had filled up on mean whiskey and assaulted the wife and family. The way of the transgressor is hard. Riley spent the most of his time in jail a few months back.

Please answer in your next: What produces the oil that we find in the Ragland field and where does it originally come from? Being lighter than water why is it that it is under the water in the ground?

[The origin of petroleum is still an open question with scientists, their theories varying. Some think it came from the degeneration of fish and other sea animals in the remote geological periods where there was no solid earth there was salt seas teeming with life. If this theory be correct the production of petroleum practically ceased ages ago. Others think petroleum is produced by chemical action from inorganic or mineral matter and the production is still going on in the bowels of the earth. Each support their theories with certain facts and plausible arguments, but as long as the doctors disagree others can choose and theorize for themselves. The petroleum like natural gas is sealed up in rocks, not being released until reached by the drill; otherwise it would never remain below the surface.—Ed.]

Died, July 6th, Edna Frances, the five-months-old daughter of Sanford Emmons and wife (nee Maggie Cannon); buried in Longview Cemetery; services at the grave by Rev. Charles Gossett. Jesus said: "Suffer little children to come unto me, for of such is the Kingdom of Heaven."

The A. O. U. W. picnic, that was held in R. L. Goodpaster's woods on Salt Well, drew a big crowd, but no sooner than they got there a shower came and wet most of them to the hide, so that it put quite a damper on them, and lots leaving to get dry clothes. Still they had quite an enjoyable time and would have had an excellent time if it had not been for the shower.

That man hasn't lived who hasn't suffered—or to whom a spirit of prophecy, born of present happiness, has not spoken of suffering still in the womb of Time. It is the quality of true happiness to hint at the sorrow that may follow—when the pendulum swings.—Pittsburg Dispatch.

Toast of John Adams.—When Lafayette visited London county, he was entertained with other eminent guests by President Monroe at Oak Hill, Leesburg, too, the historic town nine miles from Monroe's country seat, recorded him honors on that occasion, and at a dinner at that town, John Quincy Adams delivered a famous toast to the surviving patriots of the Revolution, he said, were like the Sybilian leaves—the fewer they become the more precious they were. As the toast to the bill, an author of Monroe's guests said to Mr. Adams:

"Excuse the impertinence, but would you not tell me what inspired the beautiful sentiment of your toast today?"

"Why," replied Mr. Adams, "it was suggested this morning by the picture of the Sybil that hangs in the hall of the Oak Hill mansion."

"How strange," remarked the less brilliant guest, "I have looked at that picture many times during the past years, and that thought never occurred to me."—Leslie's Monthly.
